MEMORANDUM FOR: Director of Logistics

FROM: John F. Blake
Deputy Director for Administration

Jim:

1. As you know, [REDACTED] and myself recently visited with [REDACTED] in Dallas in connection with a proposal they have to cease our rental arrangements and have us purchase a large amount of their machines that we have.

2. I was informed during our conversations that Al [REDACTED] in prior conversations on this matter some time back, suggested that one way it could be done by us is to have a capital equipment company purchase the materiel and we, in turn, would enter into a lease/buy arrangement with that organization. While I am familiar with airlines and railroads acquiring capital equipment through that route, I am not familiar with the government, except for real estate, going the same way.

3. Can you enlighten me?

/s/ Jack

John F. Blake
